CONFIRMS YOUR RECEPTION ON 11·3·75

AT 2236/2245 HRS HST

ALAN L. ROYCROFT
Chief Engineer

ALR.

Ron, Thank you for the KORL report. In the 10 years or so I have been with KORL, this is our 2nd Honda report. I guess if we could keep WSM off the air, we would have it made on the East Coast. I rebuilt the final RF on this Gates rig & it seems to be the quietest transmitter in Hawaii. We are short of tower space so I began piggy backing AM's on towers many years ago, KORL shares with KGMB, KIKI, KHVH, KZOO & KPOI 73's Alan R.
